DETAILED ACTION

This office action is in response to the Amendment and Remarks filed April 21, 2010, in which claims 1, 3-12, and 14-22 were presented for examination.

Allowable Subject Matter

Claims 1, 3-12 and 14-22 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record describes cleaning robots that travel a plurality of cells, wherein the traversing of cells follows a path of least resistance in subgrids and traveling a plurality of cells which may be roughly a spiral (Hulden, figures 11G-11K).

However, the prior art of reference does not fairly describe, teach or suggest the claimed invention as a whole, comprising an internal map of an area comprising a plurality of subgrids, each subgrid comprising a plurality of cells, wherein the subgrid map has a higher resolution than the internal map, wherein the robot travels on a surface along a travel path from one subgrid to another subgrid in **a spiral**, and the robot determines which part of the subgrid has the highest density of unclean cells, and the robot using the subgrid calculates a travel path to the part of the subgrid that has a highest density of uncleaned cells.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
